

Engineering Strategic Advisory
Industrial Solutions Sustainable Development

? Why Humanity Builds

- Building Tomorrow
- Responsibly
- Inspiring Innovation.
- Creating Legacy
- More Prominent And Elegant.

Who We Are

Enertia is an engineering, strategic advisory, and industrial solutions company dedicated to helping governments, industries, and investors solve complex challenges through integrated, sustainable, and future-focused solutions.

With expertise spanning engineering, energy, environmental sustainability, digital transformation, and industrial services, Enertia combines technical excellence with strategic thinking to deliver measurable value and long-term impact.

Driven by innovation, disciplined execution, and responsible leadership, we work alongside our clients to build resilient industries, stronger communities, and a more sustainable future.

At Enertia

We believe that every project should deliver value beyond its immediate objective. Success is measured not only by commercial performance, but also by the positive impact it creates for people, industries, communities, and future generations.

This Charter defines the principles that guide our decisions, shape our partnerships, and inspire our commitment to building a more sustainable, resilient, and responsible world. Because what we build today becomes the legacy we leave tomorrow.

Why Choose Enertia?

Execution-Driven Delivery

Turning strategy into measurable results through disciplined execution.

35+ Years of GCC Experience

Supporting complex industrial and infrastructure projects across the region.

Integrated Solutions

Engineering, industrial services, digital transformation, and advisory under one partner.

Sustainability Focused

Balancing operational performance with environmental responsibility.

Trusted Partnerships

Building long-term relationships through integrity and collaboration.

Innovation with Purpose

Applying practical technologies to improve efficiency and resilience.

At Enertia, we combine engineering excellence, strategic insight, and sustainable innovation to build tomorrow responsibly and create a legacy that lasts.

Our Purpose, Vision, Mission , Commitments

Purpose To create practical solutions that strengthen industries, protect the environment, improve communities, and contribute to a more sustainable and resilient future. True success is measured not only by what we build, but by the lasting value we create for people, society, and future generations.

Vision To become a globally trusted partner in delivering integrated solutions across energy, infrastructure, environmental sustainability, industrial services, and digital transformation—building a future where innovation, responsibility, and Prosperity advances together.

Mission To provide innovative, reliable, and execution-driven solutions that help governments, industries, investors, and communities address today's challenges while preparing for tomorrow's opportunities.

Commitments

Delivering excellence through disciplined execution.

Protecting people, assets, and the environment.

Embracing innovation that creates measurable value.

Building partnerships founded on integrity, trust, and transparency.

Promoting sustainable growth that balances economic, environmental, and social responsibility.

OUR STRATEGIC BUSINESS PLATFORMS 1-4

Integrated capabilities driving sustainable industrial transformation.

At Enertia, our expertise is organized into eight strategic business platforms that work together to deliver integrated, scalable, and future-focused solutions. This structure enables us to combine engineering excellence, digital innovation, environmental responsibility, and operational expertise under one trusted partner.

Engineering & Technical Services

Comprehensive engineering solutions covering design, project engineering, multidisciplinary technical services, and industrial infrastructure.

Energy & Industrial Solutions

Supporting the energy sector through oil & gas expertise, industrial services, plant maintenance, heat exchanger technologies, and clean energy solutions.

Environmental & Sustainability Solutions

Delivering environmental protection, water and soil management, remediation, circular economy initiatives, and ESG-driven sustainability programs.

Digital Transformation & Automation

Enabling intelligent operations through automation, Industrial IoT, Artificial Intelligence, Digital Twin technologies, cybersecurity, and data-driven decision-making.

OUR STRATEGIC BUSINESS PLATFORMS 1-4

Trading, Procurement & Supply Chain

Providing strategic sourcing, procurement, logistics, contract management, and integrated supply chain solutions.

Strategic Advisory & Business Development

Helping organizations develop resilient strategies, optimize operations, manage transformation, and achieve sustainable growth.

Research, Innovation & Future Technologies

Driving continuous innovation through research, technology partnerships, emerging technologies, and future-ready industrial solutions.

Corporate Services & Business Support

Providing the governance, finance, human resources, quality, IT, HSSE, and administrative capabilities that enable sustainable organizational growth.

Eight Strategic Platforms. One Integrated Partner. Endless Possibilities.

Our Strategic Goals

★ Deliver Excellence

High-quality solutions through technical expertise and disciplined execution.

🚀 Drive Innovation

Advanced technologies, automation and digital transformation.

🌱 Advance Sustainability

Cleaner industries and responsible resource management.

🤝 Strengthen Partnerships

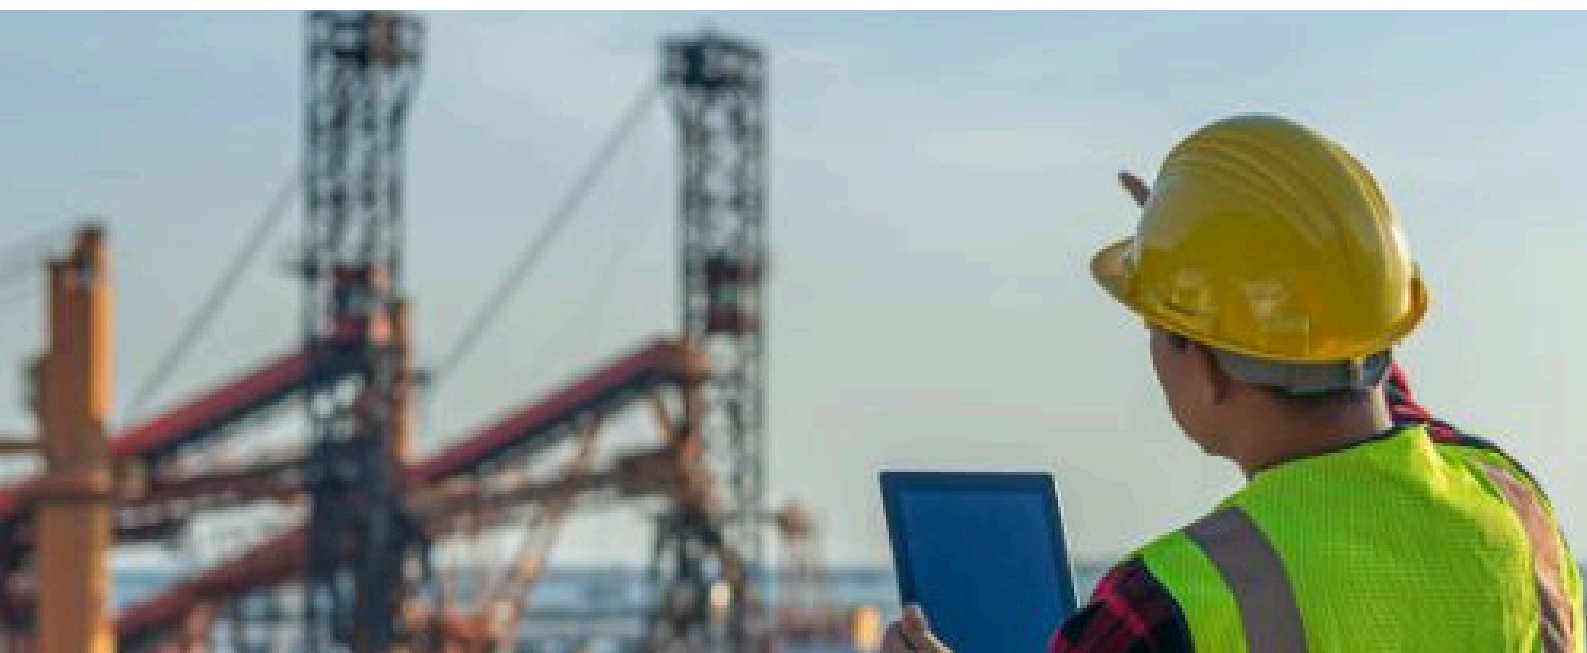

Build long-term relationships with governments, industries, investors, research institutions, and strategic partners based on mutual trust and shared success.

👥 Empower People

Invest in knowledge, leadership, safety, diversity, and continuous learning to develop capable teams that drive lasting progress.

🏆 Create Lasting Value

Generate sustainable economic, environmental, and social value that benefits our clients, our partners, our communities, and future generations.

Our Guiding Principles

What principles govern every decision we make?

Rather than relying on generic corporate values, Enertia is guided by six distinct operational and philosophical principles that differentiate us and safeguard our strategic vision:

Purpose Before Profit

Sustainable value creates enduring prosperity. We look beyond quick wins to guarantee that our actions build long-term generational wealth and planetary stability.

Responsibility Before Recognition

Every decision carries a responsibility to people, society, and the environment. True impact speaks for itself through the resilience of our execution.

Innovation Through Discipline

Innovation delivers value only when it is practical, measurable, and responsibly implemented. We reject trend-chasing in favor of reliable breakthrough execution.

Partnership Over Transaction

Long-term relationships create greater value than short-term gains. We plant deep roots with partners to enable shared success and collective growth over time.

Execution Defines Excellence

Vision inspires; disciplined execution delivers. The highest standard of planning is meaningless without the precision and rigor needed to bring it to fruition.

Stewardship for Future Generations

We build not only for today's needs, but for tomorrow's opportunities. Every footprint we leave behind is curated to empower those who follow.

Integrated Solutions & Capabilities

Enertia is not a single-service company – it is an integrated solutions partner.

We systematically integrate our comprehensive technical capabilities to solve multi-dimensional challenges. Our core services are organized under the following strategic pillars:

Energy & Industrial Solutions •  Oil & Gas Solutions •  Industrial Services •  Heat Exchanger Cleaning Technologies •  Oil Tank & Industrial Equipment Cleaning	Environmental & Sustainability •  Environmental & Sustainability •  Environmental Protection & Sustainability •  Water & Soil Management •  Petroleum Contamination Remediation
Clean & Renewable Energy •  Digital & Automation Pillars •  Automation & Smart Systems •  Digital Transformation •  Data Capture & Data Management	Strategic Value Chain •  Strategic Value Chain •  Strategic Procurement & Trading •  Supply Chain Management •  Strategic Advisory & Project Delivery

The Enertia Method

Our unique, repeatable framework that translates vision into measurable outcomes.

The Enertia Method ensures that every initiative goes through an unyielding sequence of evaluation, precision design, and perpetual support. This eliminates silos and brings certainty to high-stakes investments:

Observe

Understand

Design

Execute

Sustain

Technology Framework

Enertia leverages advanced digital technologies to improve operational efficiency, enhance asset performance, and support informed decision-making across industrial environments.

Our technology framework combines intelligent automation, real-time data, and predictive analytics to help clients achieve safer, smarter, and more sustainable operations.

Core Industries

Engineering

- Consultancy
- Project Management
- Mechanical Engineering

Energy

- Oil & Gas
- Clean Energy
- Electrical Grid

Environmental

- Water • Soil
- Remediation

Digital

- Automation • AI
- IIoT • Digital Twin

Operations

- Asset Management
- Supply Chain
- HSE

Executive Leadership & Expert Team

I. Executive Leadership

MR. ABDUL KHADER GOUSE MOHIEDDIN

Managing Director & Business Development Director

Credentials: M.Sc. in Procurement, Logistics & Supply Chain Management (University of Salford, UK)

B.A. in Business Management (University of Lincoln, UK).

Experience: **35 YEARS** OF EXECUTIVE LEADERSHIP IN OIL & GAS, PROCUREMENT, CONTRACTS, SUPPLY CHAIN & STRATEGIC LEADERSHIP.

II. Core Management Team

Mr. Abdulqader Jarara'a

**Finance & Administration
Manager, 10 years**

Mr. Shariff Hilal Qiblawi

**HR & Information Technology
Manager, 20 years**

Mr. Syed Abulhasan

**Contracts & Subcontracts
Manager, 35 years**

Mr. Fairuz Khan

HSE Manager, 15 years

Mr. Mohmad Ferihat

Operations Manager / Senior Mechanical Engineer, 8 years

III. Consultants & Senior Technical Experts

- **Mr. Nabil Al Ashi**

Wellhead Consultant 30 years

- **Mr. Osama Abdulqadir**

Senior Hydrogeologist / Consultant 30 years

- **Mr. Khalid Saleh Shariff**

Civil & Infrastructure Consultant 30 years

- **Mr. Osama Elayyan**

IT Project & IT Software Manager 22 years

- **Mr. Mohammed Fayad**

Senior Data Analyst / Consultant 20 years

- **Mr. Ammar Awmi**

Senior Full-Stack Software Engineer & ERP Systems Developer - Consultant 18 years

- **Mr. Javidh Farhan**

Senior Electrical & Instrumentation Engineer

Project Manager 20 years

- **Mr. Arun Kumar**

Project Manager / Senior Mechanical Engineer 18 years

- **Mr. Anas P.A**

Senior Project Engineer - Electrical 8 years
